Temperature & Humidity data logger

Feature:
1)USB interface for set-up and data download
2) Water resistant
3)Capacity: 16,000 readings configurable from every 30s to 1hour
4) Operating systems: Windows 2000 and XP

Specification
1) Measures Temperature range: -40 to 60 C
2) Measures humidity range: 0%RH - 99%RH
3) Temperature accuracy: +/-1.0 C
4) Humidity accuracy: +/- 4.5%
5) Quartz time accuracy: +/- 1.0s per day

Power consumption
single 3V Lithium battery (CR2032) included
Battery life 12months
